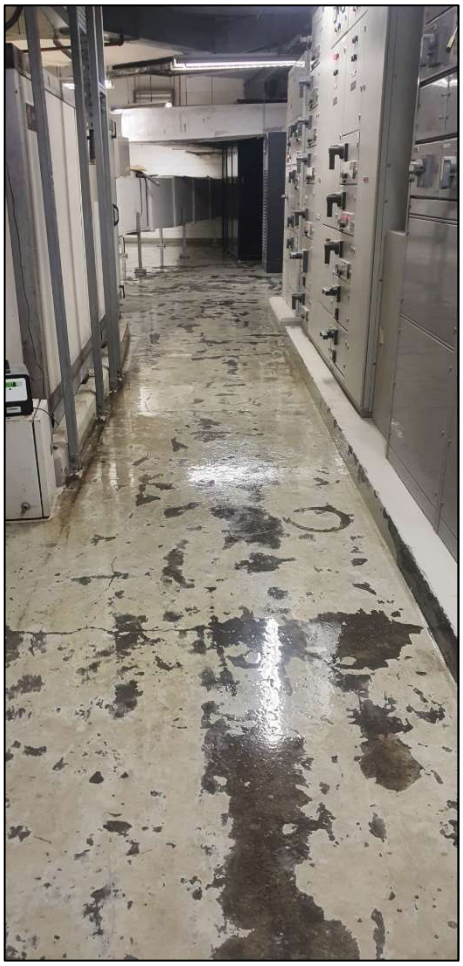
FLOOR PREPARATION

Floor grinding

Application of primer



Application 2mm Epoxy

Primer SIKAFLOOR P650

Sikafloor® P 650 is a high grade, low-viscosity, two component
epoxy primer and surface sealer.

suitable for the sealing of concrete surfaces, as well as for the filling of fissures and joints.

EPOXY SIKAFLOOR 1230

Sikafloor®-1230 is a multi-component, self-smoothing, total solids, epoxy overlay system designed to provide continuous protection for concrete floors at thicknesses between 2.0 - 4.0 mm.

Sikafloor®-1230 has excellent wear and abrasion resistance to floors subjected to high volume traffic.
